

Using POP

LECTURE
SUMMARY

Covered in this lecture:

Taught by:

What is POP and how to use it

- ▶ You can get the app at www.popapp.in
- ▶ This app helps you use your phone to add basic user flow and interaction to your wireframe
- - Create a project
 - Select your device
 - Take photos of all your screen sketches
 - Add relationships between the screens by creating tappable buttons that link them
- POP helps you communicate your ideas easier

See you next lecture!
